DOB : 14/02/2002
Address : 95/5 Kattuparur,
Konankuppam-606104
Cuddalore.

PROJECTS

1.Electricity— Electricity is web application . The system would be having two logins admin and user login. Admin can view user account details and can even add or updates things in their account. Admin has to feed the system with electricity usage data into respective users account. The system then calculates the electricity bill for every user and updates the information into their account every month. User can then view their electricity bill and pay on the spot before month end.
